Hand me the written quote or the receipt and I will come out, look at the system myself, and tell you straight whether the work is needed and whether the price is fair.

* Bring the written quote or the receipt. Within the service area, no charge and no obligation — whether you end up using me or not.

Paul Diggs — 37 years in heating and air, and I teach it too.

A/C ServiceMaster is an owner-operator business. The person who answers the phone is the person who shows up and does the work. I have been in this trade since **1989**, and these days I also **train other service technicians** — so explaining a fault in plain language is not a favour on the day, it is what I do for a living.

WHAT I WORK ON

- ✓ A/C repair & diagnostics
- ✓ Maintenance & tune-ups
- ✓ Ductless mini-splits — a specialty
- ✓ Heating, heat pumps & furnaces
- ✓ Full system replacement
- ✓ Light commercial & rooftop units

DIAGNOSIS BEFORE PARTS

Pressures, airflow and electrical read first.
